Camper Safety

We will be using the Captivate app for dismissal and arrival each day. By Monday morning of each week your child is enrolled in camp, your child's name will appear in your Captivate app. You will use the app to announce your arrival at pick-up as well as to assign someone else to pick up your child. Each family will still have a security code, but it is automatically integrated into the app. Your child cannot be picked up without someone using the app, and only you control who has access to the app.
